WERE THEY TRULY INTELLIGENT

WRITTEN BY ROBERT A. HEINLEIN
「THE PUPPET MASTERS」
TRANSLATED BY FUKUSHIMA MASAMI
EXCERPT FROM HAYAKAWA PUBLISHING MAGAZINE

It is currently cut off from communication with other plants.

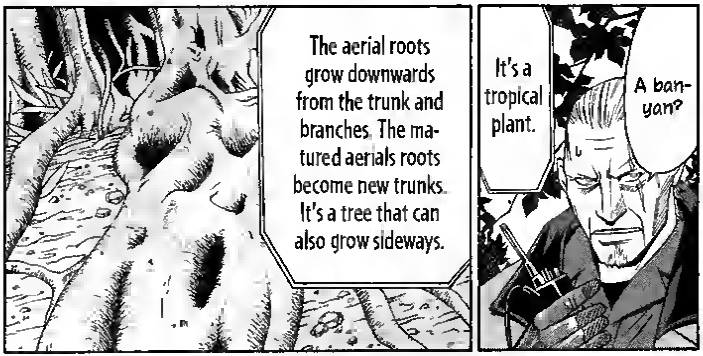
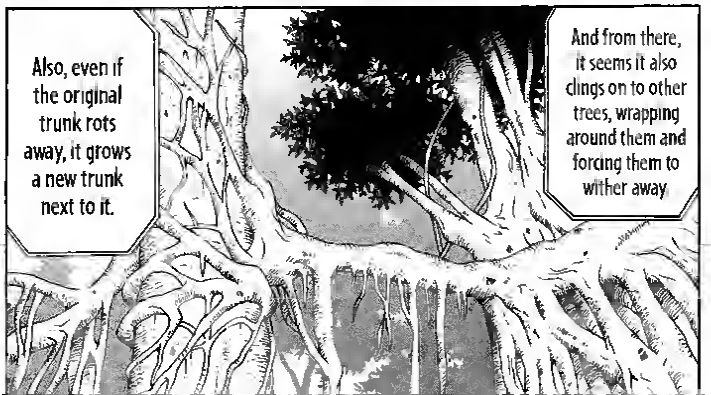
WHAT IS HE.....
AFTER HIM!! DON'T DAWDLE!
HAVE THE METAL TREADERS SURROUND HIM!! BOMBARD HIM FROM A DISTANCE!!

It's as if he were a banyan...



A banyan?
It's a tropical plant.
The aerial roots grow downwards from the trunk and branches. The matured aerials roots become new trunks. It's a tree that can also grow sideways.



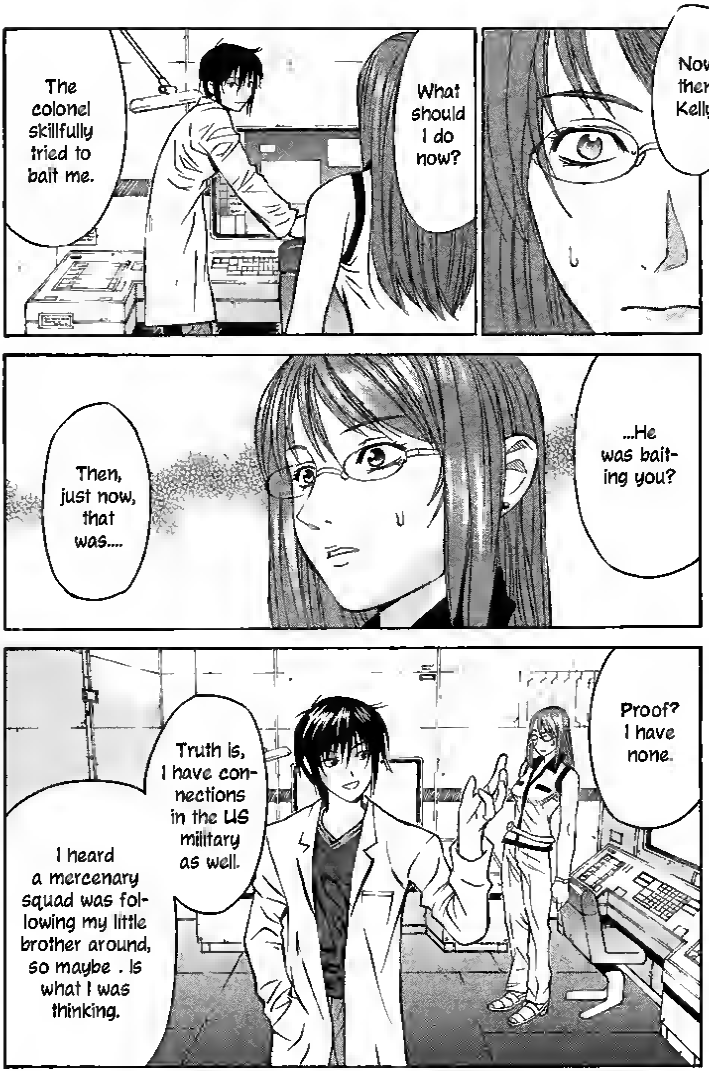
Also, even if the original trunk rots away, it grows a new trunk next to it.
And from there, it seems it also clings on to other trees, wrapping around them and forcing them to wither away.

And so, it's also known as,
"The Moving Tree"
"The Strangling Tree"
Etc.
The jammer didn't work.
It worked
It's just that it spread its roots underground and exchanged information through that network
Even if the amount of information exchanged is decreased, he might still be using scents or natural allelopathy.
I guess we have to rethink the fundamentals, huh...
Aha ha-ha
You can't just laugh this off!!

And to begin with....
Didn't I tell you from the beginning that this is an 「experiment」?
Well, what can I say, I'm stumped
You made a move against Shin without notifying me at all.
!!

Did you think I didn't know?
I collect all the information at hand and make inferences about the truth.
My specialty is 「Information Integration」.

When it comes to information warfare, I won't lose even to you
.....which means,
There's a high possibility that he's also aware of my connection to the Colonel...
CRACKLE
.....I'm cutting communication



Now then, Kelly,
What should I do now?
The colonel skillfully tried to bait me.
...He was baiting you?
Then, just now, that was....
Proof? I have none.
Truth is, I have connections in the US military as well.
I heard a mercenary squad was following my little brother around, so maybe . Is what I was thinking.

Do you think I would make the mistake of letting him get a hold of me?
This is information warfare.
A war of information.
He wasn't able to detach from the main body, but this supports my hypothesis...
I don't understand a single thing about this man
I don't get him
Now, the plant's behavior,

Will they exceed my predic-tions, or fall short?
I have to find out.

On my signal, tighten the flight circle and fire the signal jammer for fifteen seconds.
Eight seconds thereafter, fire the missile.

I believe it's with the US army.
Also, one aircraft is making contact.

I have a separate plan for capture.
It's improvised, but we'll give it a shot.

A new method that gathers advanced knowledge from different specialized fields and integrates them to create hypotheses.
Information integration-
It's obvious that you'd be discriminated against by specialists in each field.
Even if you put it nicely, you're an outsider. Putting it bluntly, you're a thieving scholar who just steals research results.
Besides having the right personality, unless you're superiorly talented, it can't be done.
And yet,
Yeah?

Oh...
If you give me feedback for these results, it'll benefit us both.
It's important not to forget about give and take.
... So, did anything come up in the schedule?
COO Wallace has arrived at Leo's branch.
He requests that you clear your schedule to meet him.
... the one guy I really don't want to see now is here, huh...
So he comes pretending to encourage me, and then he probes me, right.. scary, scary.
.....?

In the end, even within the field of information integration, there are special fields for different goals.
Gates Wallace is a financial information integrator.
Which means he's a fellow scholar who walks a different path from my own.

Oh That's right...
Unlike me,
He lives in a world where numbers are everything.
Excuse me. ?
If you're asked a question, even if it puts me in a disadvantageous situation, just answer honestly
He pretty much sees through all the facts when he asks someone a question.
It's impossible to hide anything, plus it just leaves a bad impression
I- I understand.

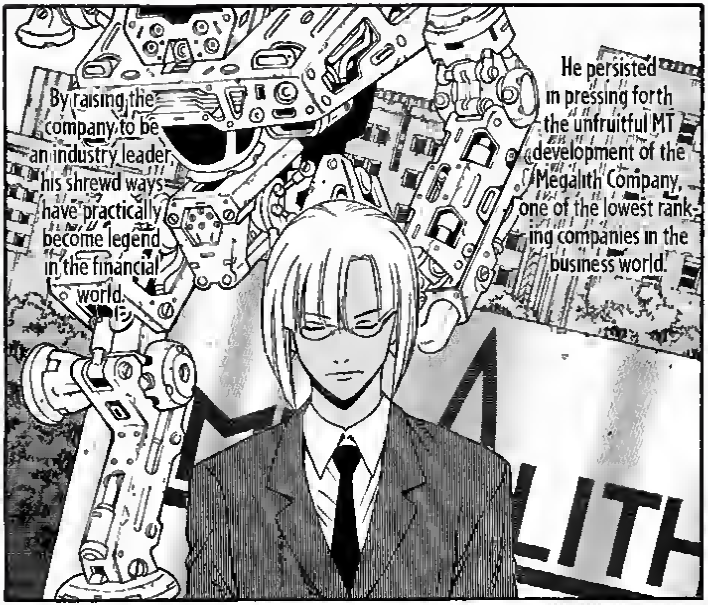
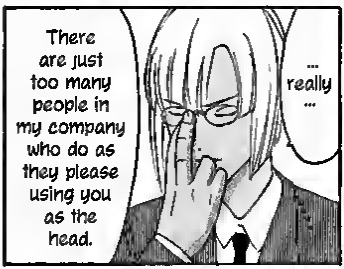
You're late.
A hallway in the same facility?
This isn't the time for jokes
Sorry, these hallways are like a maze.
I haven't received any new reports lately.
Well, we haven't had many new findings.

I'm aware of that, COO Wallace.
But it's not very nice of you to trouble me without even bringing a present... don't you think?
Even if the Chief of Staff is seeking your assistance, you are still employed by my company.
Don't forget that.
Gates
Wallace....

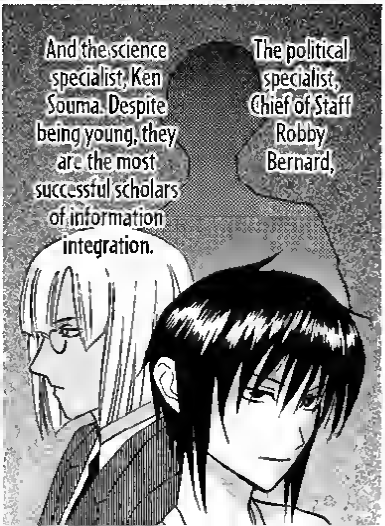


By raising the company to be an industry leader, his shrewd ways have practically become legend in the financial world.
He persisted in pressing forth the unfruitful MT development of the Megalith Company, one of the lowest ranking companies in the business world.
LITH

I suppose I'm not even a blip on the radar.
That's what the doctor said.



There are just too many people in my company who do as they please using you as the head.
... really ...



And the science specialist, Ken Souma. Despite being young, they are the most successful scholars of information integration.
The political specialist, Chief of Staff Robby Bernard,

Send that message along to that Colonel you're so friendly with, as well.
Haha, he figured you out.
Of course. I have the reports from every department in my mind.
The flow of funds, the placement of talent, and how far their individual projects have progressed,
If I piece all of that together, "the outline of truth" emerges naturally....

Why did something wasteful come up?
Was that waste a necessity?
And can we eventually salvage it?
To me, that is what matters most.
The fact remains, you illegally sold one of our facility's experiments to the American troops,
And you conveyed more information than necessary to the president. These are things I cannot overlook.

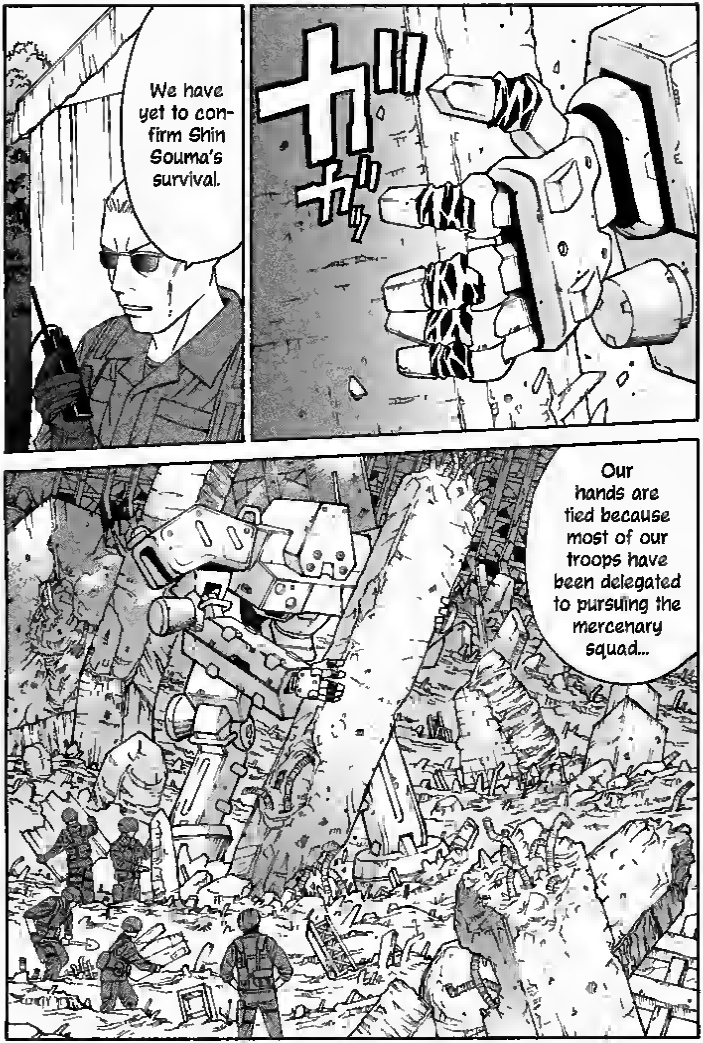
If I may, the one who decides what is or is not necessary is me.
I just gave it to them because it was necessary, Gates.
I'm well aware of the fact that your research will eventually bring about a large contribution to my company

Most of the research you've been involved with has yielded favorable results.
I can turn a blind eye to to your selfishness to a certain degree.
But working that to benefit us is my job.
You're really putting me on the spot here.....
It's you we're talking about.
You're hiding something, right?
You're withholding information that you received from Robby Bernard as compensation for your co-operation.

I was thinking of sending in a report after looking into its nature to a certain degree
So that's what you wanted to ask about after all.
Please turn your attention to this monitor,
COO Wallace.
So I will make that decision.
Scientists don't know when to do business,
Beep
CLANG

.....
BUT EH EH
... what is this ...?!
SOUMA SHIN, CAN YOU HEAR ME?!

PLEASE,
PLEASE RE-SPOND!
If it's buried under the rubble, with that output, it would be difficult to detect.
We have yet to receive any transmissions.
SOUMA SHIN ...!!
RE-SPOND ...!!



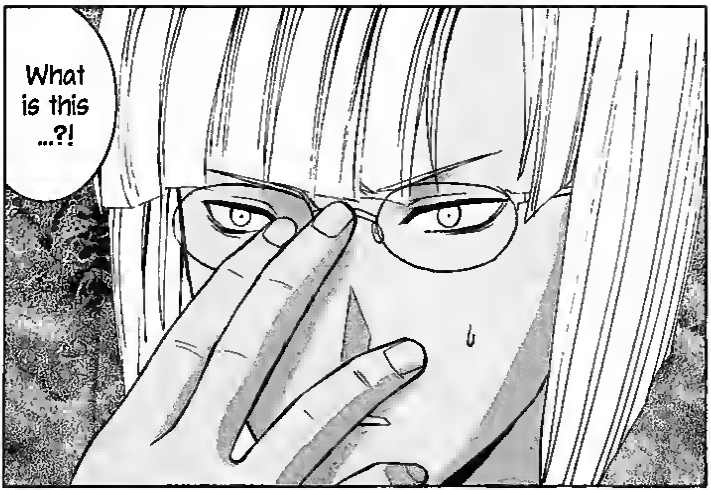
We have yet to confirm Shin Souma's survival.
Our hands are tied because most of our troops have been delegated to pursuing the mercenary squad...

It's so that he doesn't have time to dismantle the explosive should he decide to run.
I KNOW THAT MUCH AT LEAST!
WHY IS IT ONLY THREE HOURS IN THE FIRST PLACE?!
EVEN IF SHIN-KUN IS ALIVE, IF WE DON'T FIND HIM WITHIN THE TIME LIMIT, HE'S OUT...
I can hardly say that things are progressing smoothly either...
We lack the manpower to conduct a full scale search...

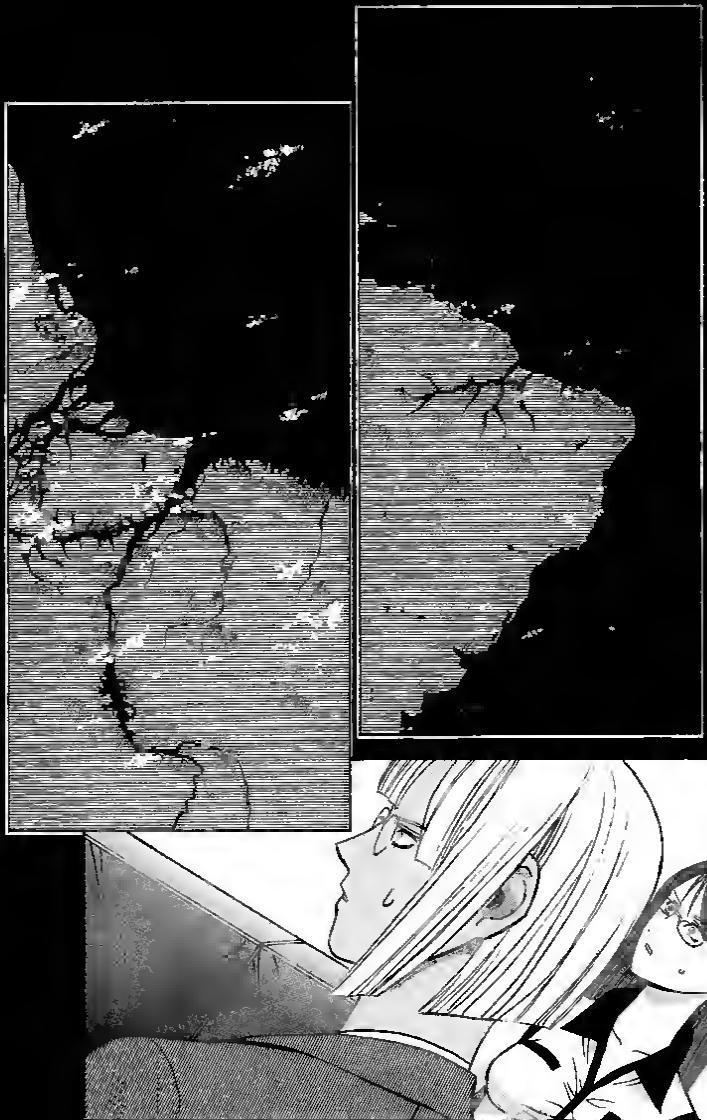
In the instance you can't find him within three hours abort the search and switch to pursuit of the mercenary squad.
No matter.
!!
CAP-TAIN
How-ever,
Until then, put everything you have into the search.

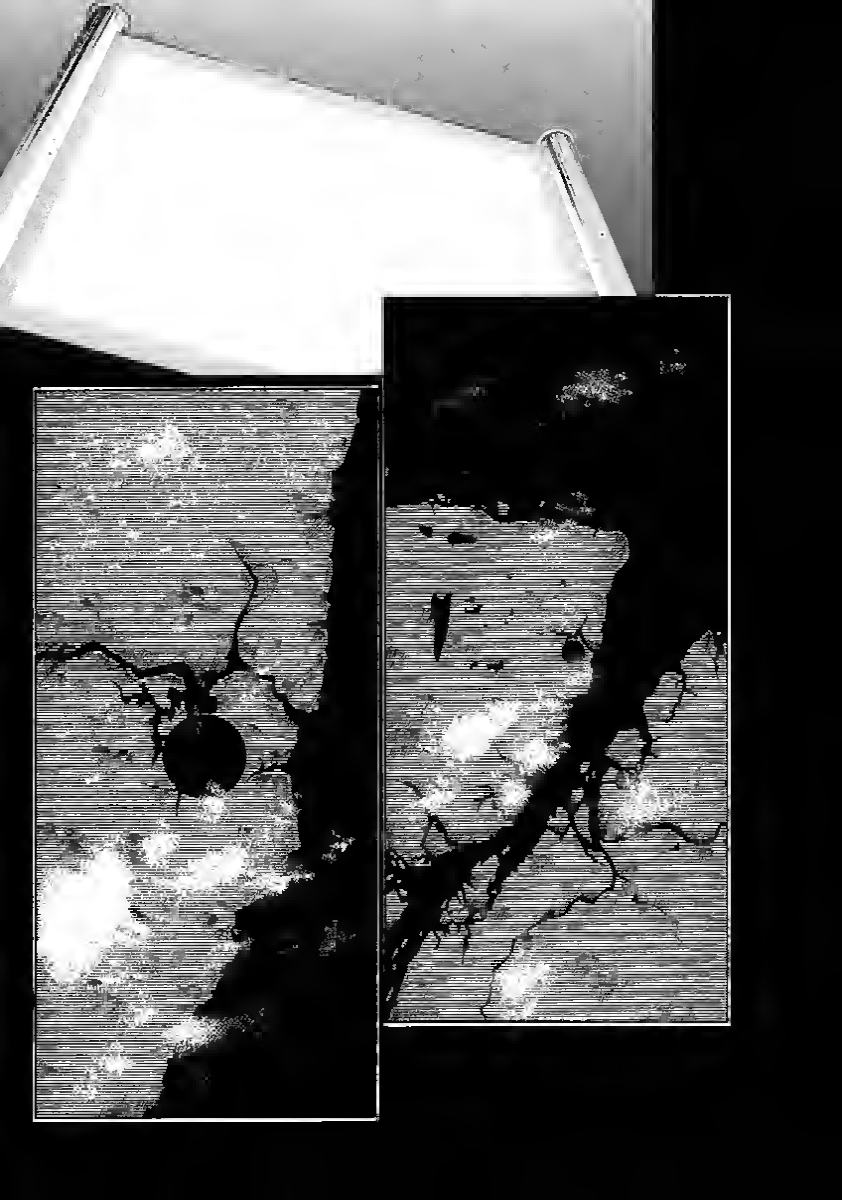
ROGER!
Do not forget to keep watch over the Arethusa as well.
Stay focused and get to work.
Dina?

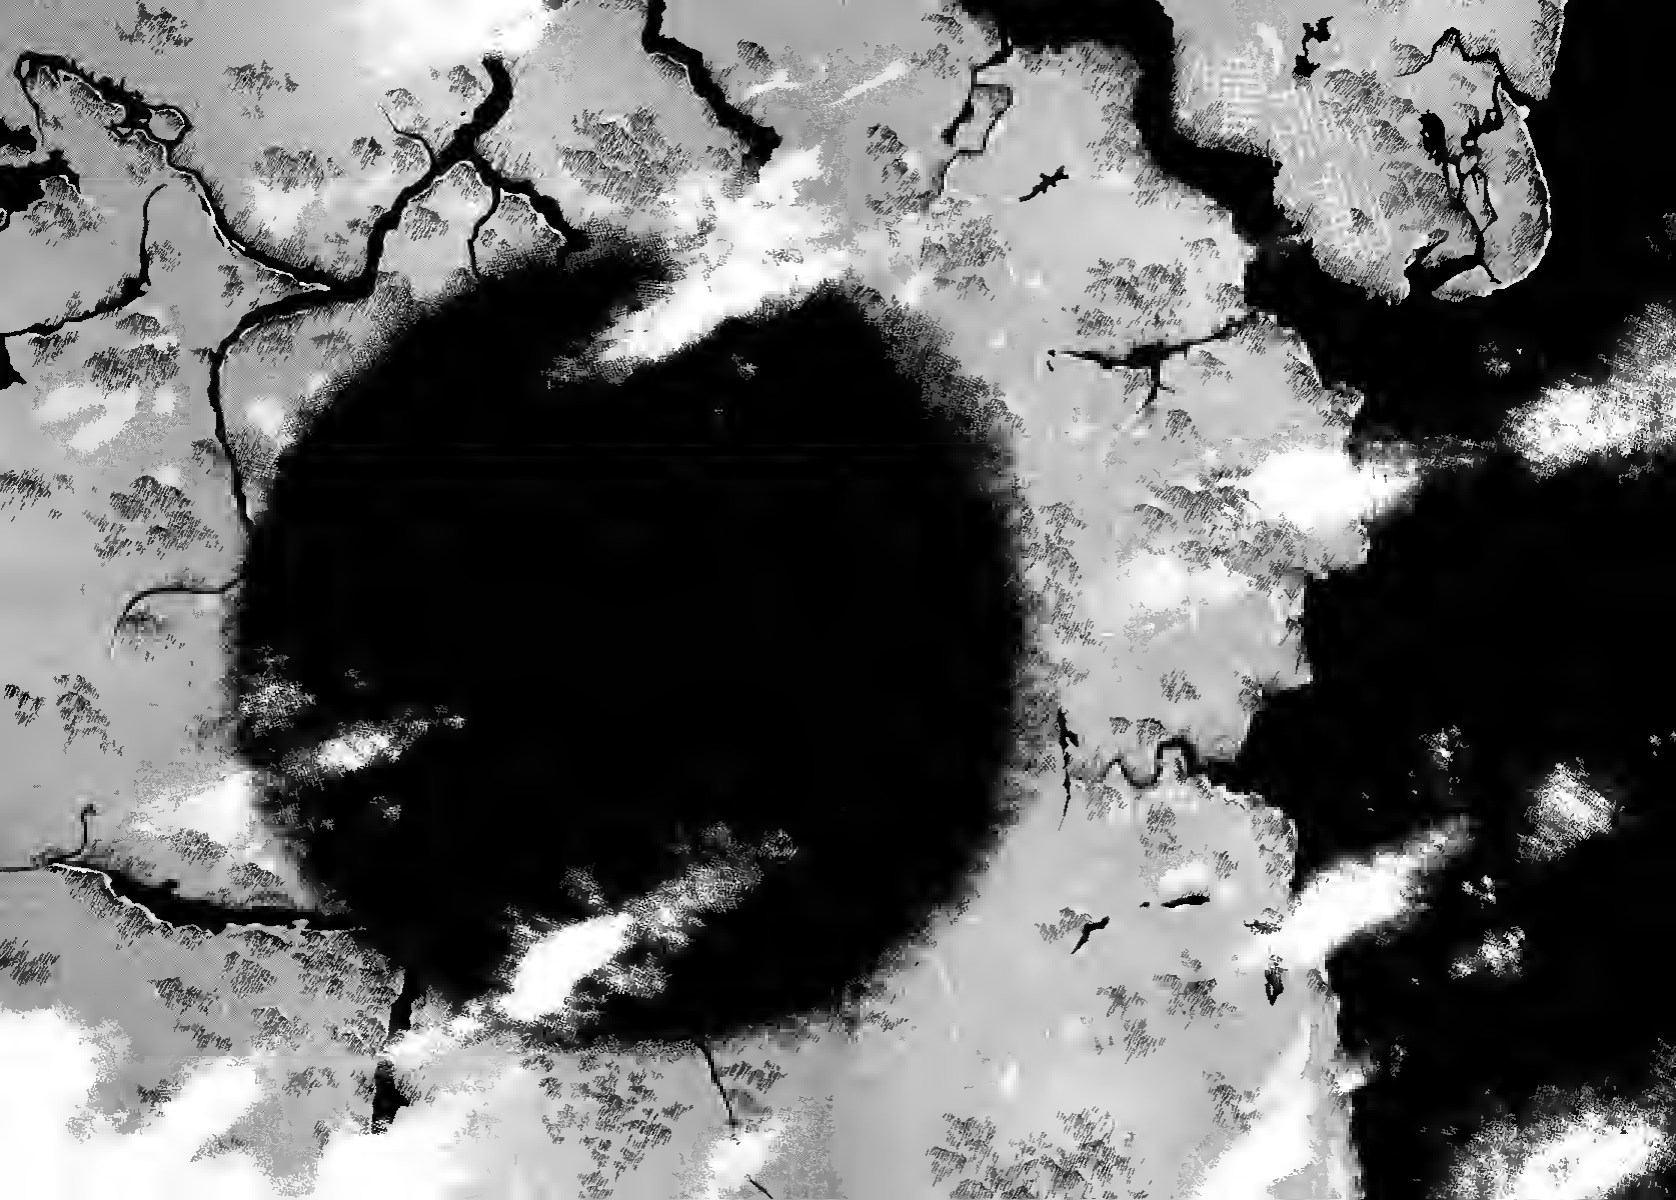
Do you sense something...?
.....
...I don't know.
... but,



What is this ...?!







This is a nearby location, just under the equator in South America.
It's a satellite image.

This... is rather large, isn't it...
Right. There's no frame of reference, so it's hard to tell, but...
Its diameter is about ten kilo-meters!
It's a dome-shaped 「Areth-usa」
TEN...!

ゴゴゴゴゴ

DRAWING / DR. MOREAU

That's why I don't like this guy...
He doesn't understand things unless they're converted into a price, does he...?

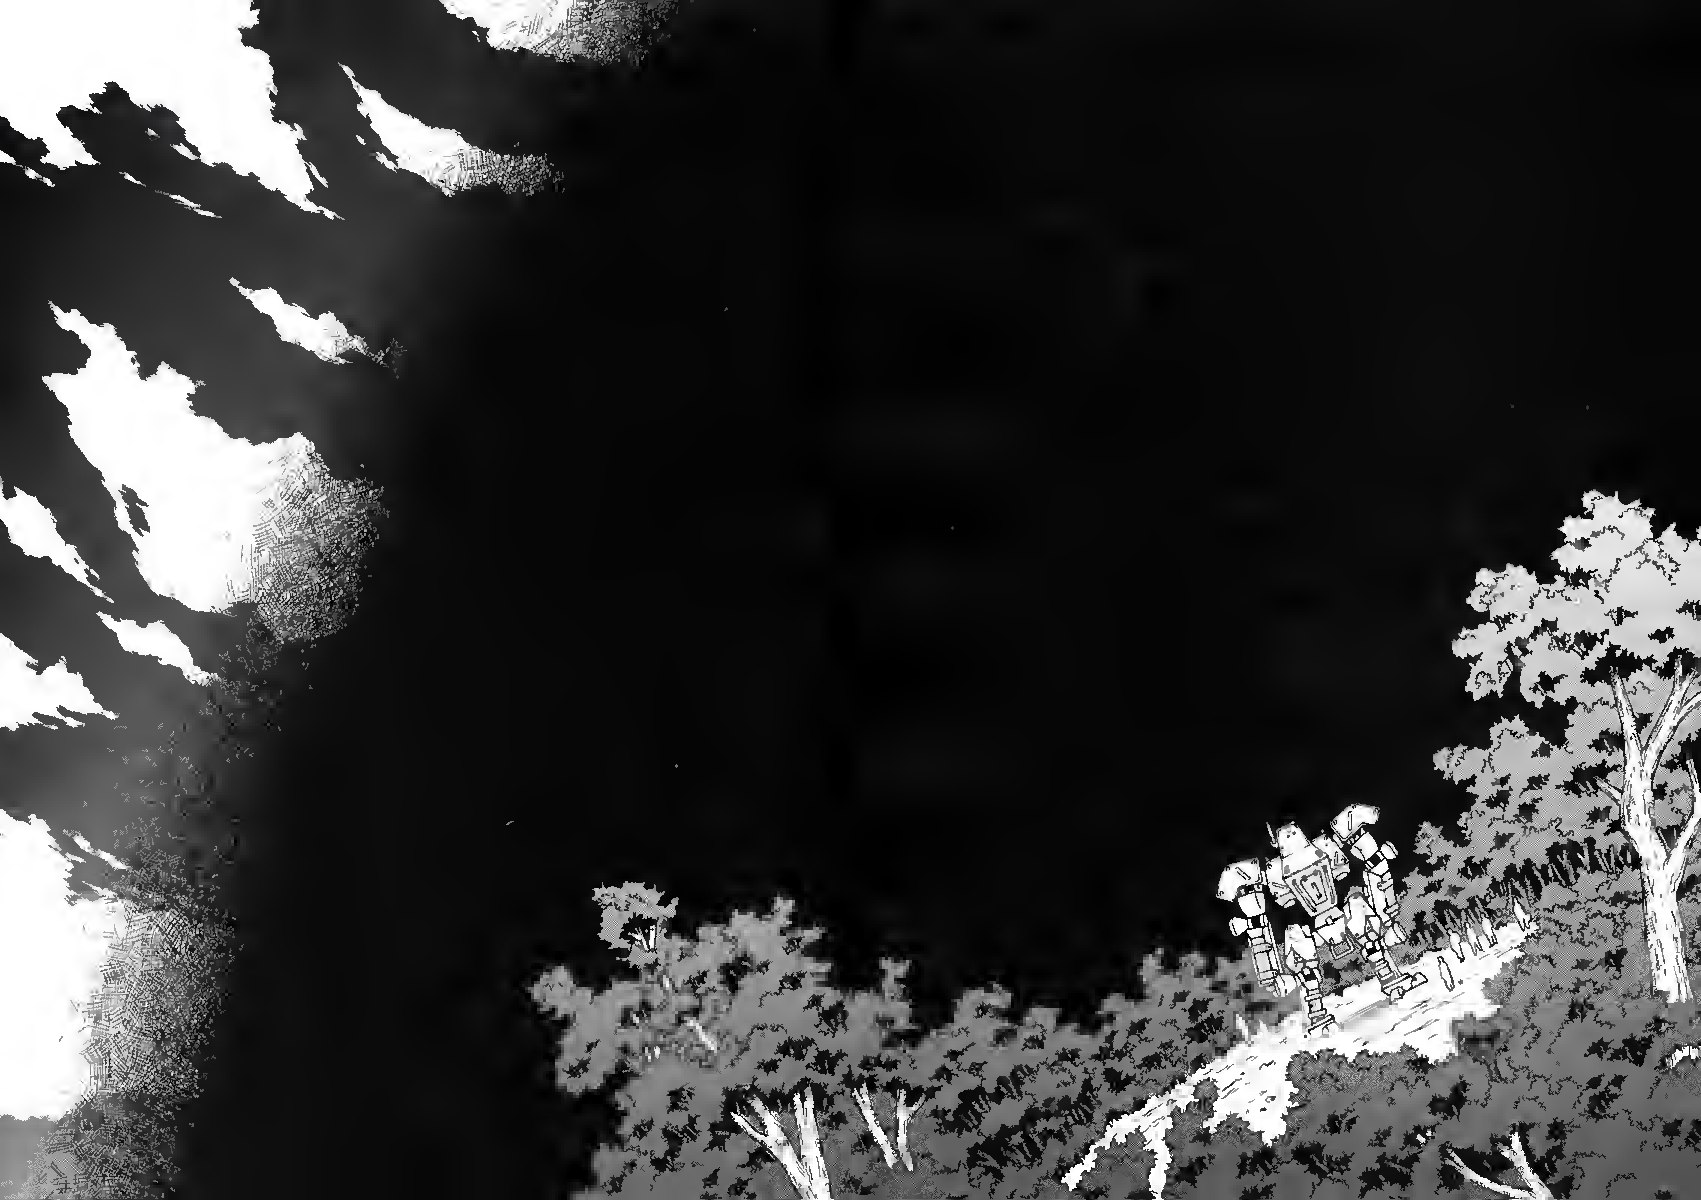
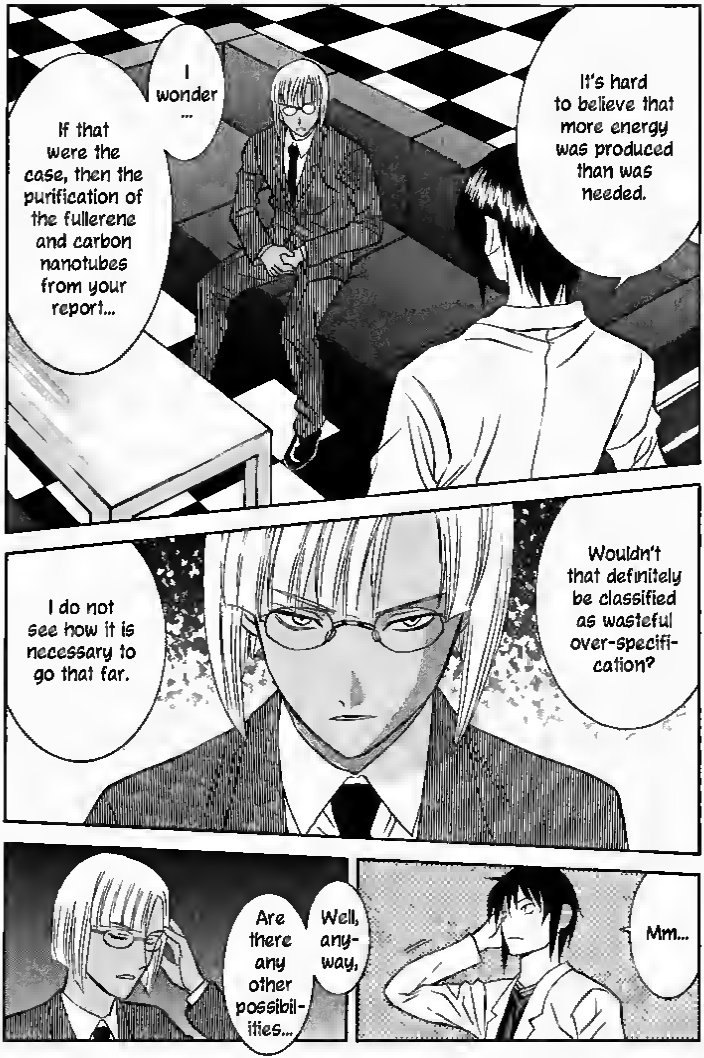
An Arethusa ---
That's ten kilometers wide
Haha, surprised?
Currently, the American army is in the middle of investigating
I've arranged for that report to come my way as well.



Yes... I am surprised.
This situation is beyond my expecta-tions
Even before discussing how it got there or for what purpose, there's one thing that we still can't explain.
Consid-ering the American satellite system's orbital period, it seems to have formed in a short span of time.

To construct something of this volume, a considerable amount of matter is required.
But it doesn't exist.
Is it possible ...
That an existence was born from non-existence?

...?
Are you talking about matter and anti-matter?
Are you suggesting that the energy filling the space created matter?
You have a good grasp of science even though it's not your speciality, don't you?
That's Gates for you.
Well, I can't disprove it, but the chance is slim.
I wonder if nature would do something so wasteful.



It's hard to believe that more energy was produced than was needed.
I wonder ...
If that were the case, then the purification of the fullerene and carbon nanotubes from your report...
Wouldn't that definitely be classified as wasteful over-specification?
I do not see how it is necessary to go that far.
Mm...
Well, anyway,
Are there any other possibilities...

... I doubt it...
Something so simple might just be the answer.
Perhaps it was brought in from somewhere else?
Excuse me for interrupting your discussion, but...
Uh... um....
Do you two not sense a crisis, looking at this situation?!
If this fact spreads throughout the world, there might be more than just a panic!

That's for the Chief of Staff to take care of.
It is not my place to worry about it.
Right...
Nope.
Hardly.
Eh~
... Gates' abacus has been set in motion...
Isn't it scary how he's looking for a way to benefit from this situation...
Are you sure you should be speaking about others?
EH?

... I wonder if he's serious ...
No, I should be more careful...
I see... From your point of view, we're peas in a pod, huh...?
Mumble Mumble
MAKE IT SO THAT HE'S STANDING RIGHT BEFORE ME IN EXACTLY TWENTY FOUR HOURS!
YOU! CONTACT THE COLONEL AS SOON AS POSSIBLE!
It's me!
Get me Chief Burton in weapons development.
U, UNDERSTOOD!
THIS IS TOP PRIORITY! I WON'T FORGIVE ANY DELAYS!

I wanted this guy to sit back a little longer....
It's hard to tell how the situation will change now.
Ah~ ah..
Well, I was prepared for this much at least.
I'll give it a go.
How will I take the initiative with these two stubborn scholars?

What is it?

I have a request that falls beyond my boundaries.
And afterwards Major, if you would speak on my behalf and cooperate...
... Uh oh... I wonder if this team will be disbanded soon...
I'll hear it outside.

Maybe I should ask for a long vacation.
Well, isn't it true? If that guy's gone, there's no way for us to work.
.....
Second Lt. Field?
What do you mean you'll chase after your older brother?
And you can't even take care of yourself, but you go and take responsibility for a bunch of kids.
You should've just stayed put in Japan.
Why don't you say something?
Hey...

I'm sorry.
I respected him,
That guy.
He kept moving forward, even though he was being chased down
I couldn't do that.

We were two beings connected only by our voices, but still!
I don't see him as a stranger anymore.

Moreover, there are two problems, understand?

THERE'S NO GUARANTEE IT'LL WORK, OKAY? DO YOU UNDERSTAND?!
I HAVE TO KEEP TRUE FRIENDS CLOSE, RIGHT~

We have yet to find him.

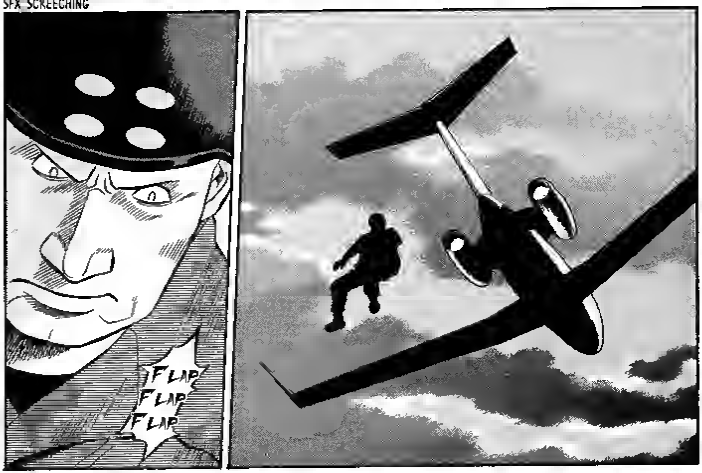
SFX SCREECHING



CAPTAIN PRIZE!
These are the two children.
As instructed, leave one unit here and regroup with the other unit that went ahead.
Track down the unknown mercenary squad

So, this is our first time meeting, boy.
I'm Captain Neil Prize.
Starting now, you two are under my care.
THUMP
THUMP
Wh, what do you want...
STARE
SHE'S RIGHT! WE HAVEN'T FOUND AN-CHAN YET!
NO!
The space under these ruins is about as wide as a small town.
Even if we tried to dig up his corpse, it would take several months.
It's pointless. He's already dead.

.....
I'm staying here!
No!
Or, are you telling me that girl knows where to find him?
.....
Well..
They just said it looks to be the husk of an Arethusa..
It's me.
We've received a report from the pursuit squad that they've come in contact with a strange object.
... Give me the details.

I will move at my own discretion.
Understood. Look to the Major for detailed instructions.
Megalith Company Brazilian Branch
That's right. There's a high chance of obtaining an enormous amount of fullerene
It should be much more cost effective than purifying it by hand.

IF YOU CAN'T PUT TOGETHER A RESEARCH TEAM AND SEND THEM HERE WITHIN TWENTY FOUR HOURS, I WILL CUT OFF YOUR FUNDS.
I UNDERSTAND THE RISKS! I SHOULDN'T HAVE TO TELL YOU HOW MUCH THIS IS WORTH.
PROVE TO ME THAT THE RESEARCH FUNDS I'VE INVESTED THUS FAR HAVE NOT BEEN IN VAIN!!
Beep
Yes?
Click
Send out instructions to transport the Arethusa to Doctor Souma's lab.
I won't take any objections.
Understood.

But that's my biggest concern...
As long as Ken and Robby don't interfere, I should be able to turn a profit...
... now, I've done all I can...
I don't have enough cards to outplay the other two.
I'm the last to make a move.
The Colonel has arrived
Let him through

... Four hours, huh... that was faster than I expected.
What about your unit?
I left my unit on site and came as quickly as possible
Then, let us not mince words.
I would like to borrow your unit's strength.
Your opponent is the American army.

Of course, it would trouble me if you openly caused any trouble.
Haha... That's an extreme proposal even for the Megalith Company's COO.
From the location I direct you to, I want you to bring me a sample of the object the American army is currently investigating.
I will not allow any questions

...
...
Y, YES?
... You two.
What is it?
Ah... no, but...
I'm kind of worried, so...
like...
What are you saying?
We don't need three people here anymore
Second Lt. Field, you take your break first.

You'll throw the shift out of order.
Actually, you should be done already
I understand... then, I'll just...
I'll return as well when it's time to alternate.
If anything happens, send a report.
I'll use this time to make it so we don't get caught easily...
Type
Type

Don't talk.
THAT MOTHER-FUCKER...
THIS IS THE COLONEL WE'RE TALKING ABOUT... WE'LL PROBABLY BE LEFT BEHIND...
If we can't regroup with the others, that is.
DAMN IT...! JUST WAIT...
Shut up for a bit.

NO!!
I'M NOT LEAVING!
H-HEY! STAY STILL...
NOO ~!!

!!
OW! YOU LITTLE ...
STOP MESSING AROUND!
Really now... hey, boy!
I understand how you feel, but no matter how long you stay here, it's pointless.
This is for your little sister's sake. Go persuade her for us
Come down!

There was a time when we handed her off to some stranger because it was supposed to be for her sake.
Even now, I think it would've been better not to
You adults always say the same thing, don't you?
Heh...
We didn't ask her how she felt about it.
Get down!

She's saying she doesn't wanna leave yet.
Until she gives up, I won't give up either.
You never know Something might still happen, right?

Captain Prize,
This is the pursuit squad
We've lost sight of the mercenary squad
It seems they've completely withdrawn
Roger
Keep alert as you pull out.
What a skillful retreat. I doubt they even left a single trace...
A first rate unit with advanced equipment, and an organization capable of military MT usage within the States...
That being the case, I can pretty much figure out their true identity

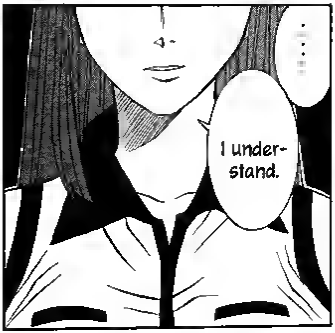
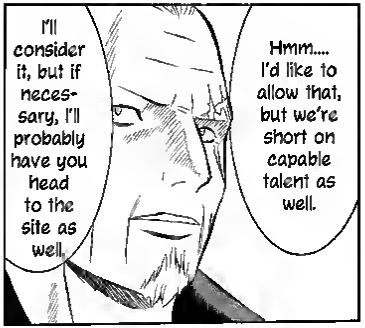
....He's heading south after all....
It was reported that they have that in the south
Is that where you're headed.....?

That's quite terrifying.
Beep
Yes, it is COO Wallace had a similar impression.
Fu ....
Well, he yelled at me to arrive precisely at the designated time

May I ask what your plans are for me, hereafter?
Umm ...
Tell him that we'll begin operations as soon as my unit arrives.
Now that my situation has been exposed, even if I stay where I am, I don't believe I will be able to produce any necessary results However...
.....
Is there anything you wish to do?
I'm not trying to be selfish, but, won't you allow me to continue as I am?
This predicament has spread on a global scale.... In order to grasp the current situation there is no place better than here.... That is what I thought.

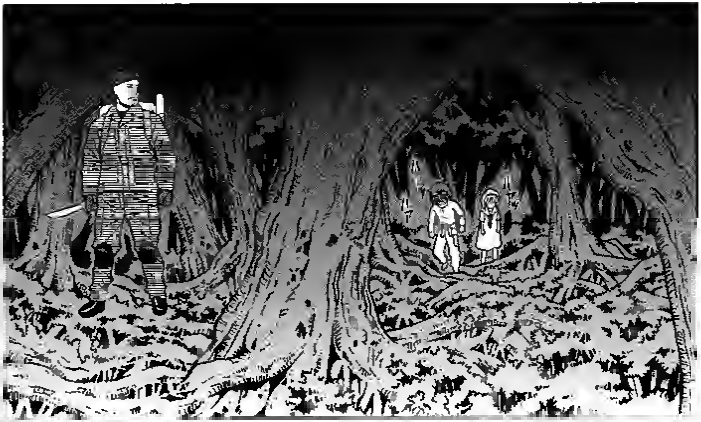


I understand.



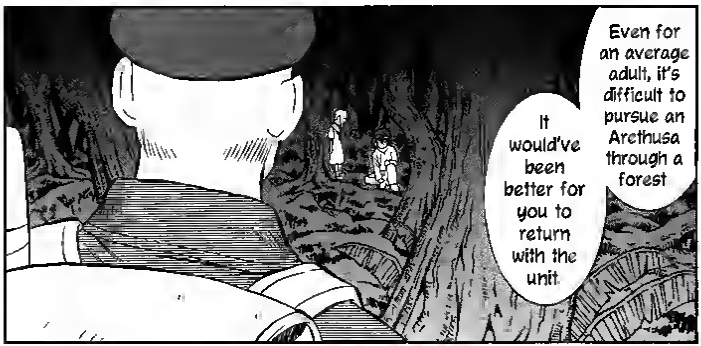
Hmm.... I'd like to allow that, but we're short on capable talent as well.
I'll consider it, but if necessary, I'll probably have you head to the site as well.

.....



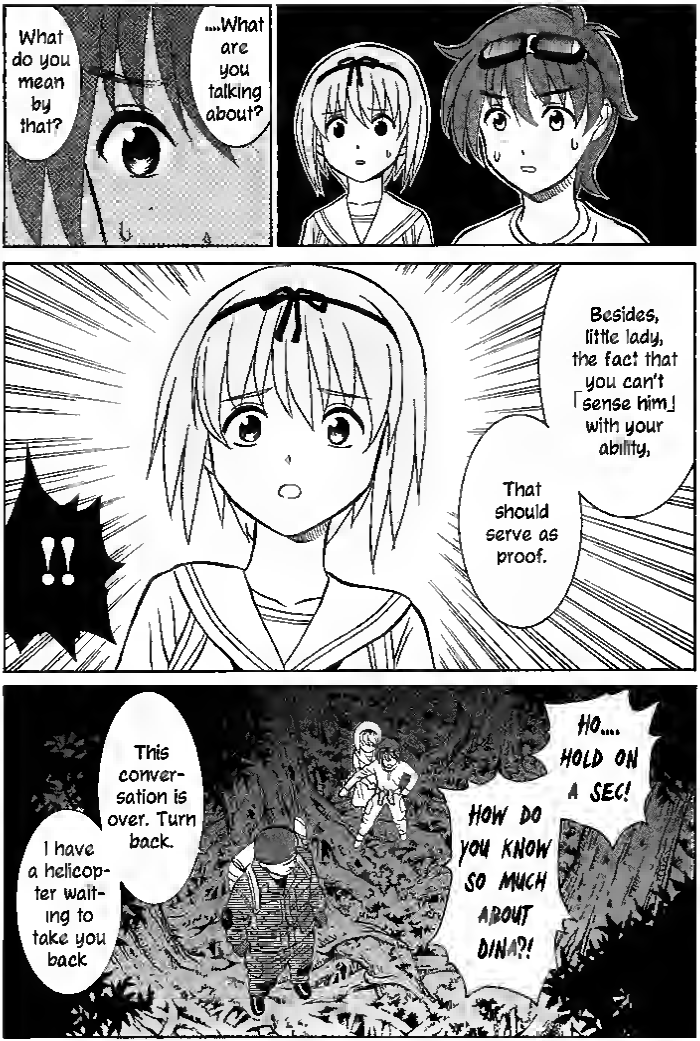
Are you two about ready to give up?

.... DAHH.



Even for an average adult, it's difficult to pursue an Arethusa through a forest
It would've been better for you to return with the unit.

IF WE FOLLOW HIM..... SHIN WILL COME!
.... HE'LL COME!
.....
Keh ....
It's pointless. He's not coming.
WHY?!
WE DON'T KNOW THAT YET!! IS THERE SOME REASON THAT MAKES YOU SO SURE?!
There is.
It's because I was holding his life in my hands.
U.S.AR



What do you mean by that?
....What are you talking about?
!!
Besides, little lady, the fact that you can't 「sense him」 with your ability,
That should serve as proof.
I have a helicopter waiting to take you back
This conversation is over. Turn back.
HO.... HOLD ON A SEC!
HOW DO YOU KNOW SO MUCH ABOUT DINA?!

EVEN IF WE COLLAPSE ON THE WAY, WE WON'T BLAME YOU. SO LEAVE US ALONE.
WELL, WE'RE FREE TO GO WHER-EVER WE WANT, RIGHT?!
It's some-thing you two don't have to know about
WE'RE NOT DONE TALKING! EXPLAIN YOURSELF!
KAA~ THIS IS WHY I CAN'T STAND MILITARY GUYS....
As long as you're citizens of the United States, it's our duty to protect your lives.
You think I can allow that?
Really now ....
Should I let them do as they want until they give up...
That's not it. I'm telling you to go back.
This thick headed old man says he'll protect us.
Forget it. Let's go, Dina.

What is it? Giving up?
..... H.... Hey, old man....
Why did you come to a place like this yourself? Couldn't you have just left this to one of your sub-ordinates...
Old man.... aren't you a high ranking soldier?
.... I was thinking.... that it was strange.
NO....!
The 「implant」 which killed the boy, was carried out under my charge.

Nor do I think I can.
I'm not trying to make up for it.
.... Hey, are you listening?
But that which the boy left unfinished,
I have no intention of leaving it to anyone else.
U.S ARMY
It looks like An-chan had some circumstances that he had kept a secret from us....
.... I don't really get it, but,
.....

Dina watch your....
!
DINA ....?!
DINA?!!
Let's look for her.
Stick behind me.
CALM DOWN! DON'T MAKE ANY RECK-LESS MOVE-MENTS!!
OLD MAN, DINA! DINA'S....!!

There aren't any traces of missed footing, and there are breaks in the footprints.
This is....
Make sure to keep your head down, boy.
O, Old man....

BANG
BANG
BANG
BANG
Whoa, I wouldn't do that.
!
SFX. RUSTLE
....All right, just relax.
Or it'll be bad for both of us, get it?

We can't just shamelessly walk back empty handed, you know....
It's a bit uncouth, but this is the deal, asshole.
Stop with the idle talk Your opponent is an American soldier.
AS LONG AS MY OPPONENT ISN'T A MONSTER, I CAN DEAL WITH THEM, ONE WAY OR ANOTHER.
HEH! MY BAD.
DAMN, THOSE GUYS AGAIN....!
So there were soldiers left behind after all....

We'll take him out, along with the kid
... No, if an American soldier is here, all the more reason
Should we fall back now?
Teh ....
I
RUN AWAY!! BIG BROTHER.
DINA!!
.....

TWIST
Die....

Help
me...

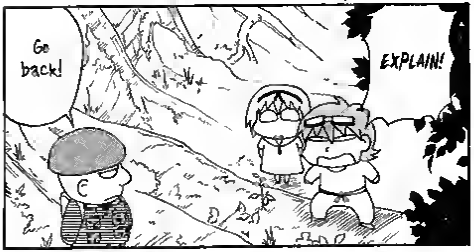
DRAWING / DR. MOREAU

Gates's job.

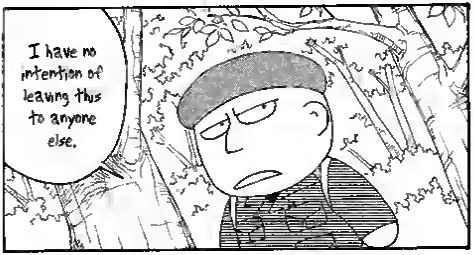
You didn't?



Go back!
EXPLAIN!

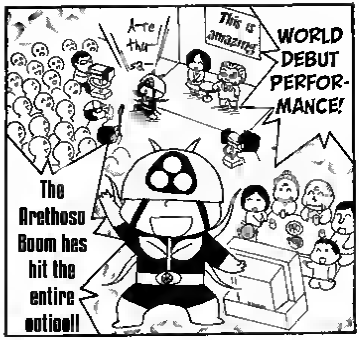
Shouldn't you just leave this to your subordi-nate?
Aren't you a high ranking soldier, old man?

Baldie.



I have no intention of leaving this to anyone else.

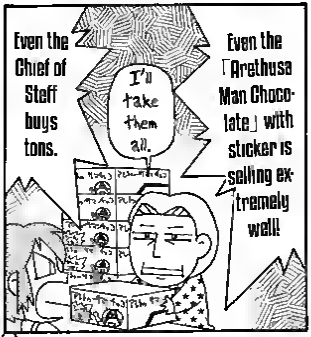
GO BACK-
I'm a specta-tor.
Then, what's this?



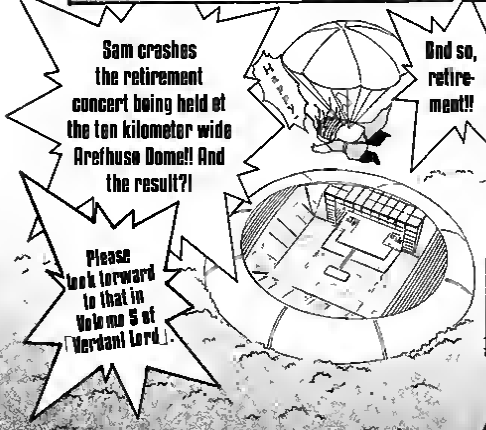
WORLD DEBUT PERFORMANCE!
This is amazing!
The Arethosa Boom has hit the entire nation!!

Now then, the next volume of 「Verdant Lord」!
The miserly Gates sets a trap for Shin, who returns after moving even further away from humanity.
I CAN SELL THIS.

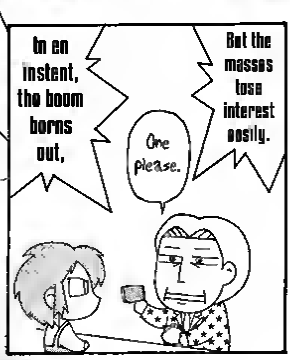
All of America cried at the voice that even brings down flying birds.
NEW SONG, 「IT'S GROWING OUT, OH NO~♡」
Getting carried out, out comes a CD debut
SINGING BOE~



Even the Chief of Staff buys tons.
I'll take them all.
Even the 「Arethusa Man Chocolate」 with sticker is selling extremely well!!



Sam crashes the retirement concert being held at the ten kilometer wide Arethuse Dome!! And the result?!
Please look forward to that in Volume 5 of 「Verdant Lord」.
And so, retirement!!



In an instant, the boom burns out,
But the masses lose interest easily.
One please.
